ABRIDGE -- 1. To shorten, limit, diminish, moderate or curtail, as in Speech. 2. To reduce the scope of a right.

ABUSE -- Like the false accusation of spam or anti-Semitism, the false accusation of Abuse causes loss and actual abuse when Email Marketing Companies act upon it to censor Speech of clients who they claim do not have effective "Unsubscribe Policies."

ADPOCALYPSE -- 1. The period of time when Madison Avenue Ad Agencies began extorting Social Media Websites to censor Content that did not align with the Control Group's interests, values, cultural perspectives and/or prejudices. 2. By threatening to pull advertising dollars from Social Media Websites (like YouTube) unless they deleted politically incorrect Content (videos), the Advertising Control Group on Madison Avenue, was able to censor thousands of free-speech videos.

ADPOCALYPSE REMEDY -- Instead of YouTube taking down a video because a corporate advertiser doesn't like it, why not allow the advertiser to pick which videos it finds acceptable and only advertise on those. Pointing the blame back and forth between advertisers and social media platforms is little more than obfuscating who is responsible for Political Censorship.

ADVERTISING -- 1. Sending out emails or promo to sell a product or service. 2. Non-consensual communication to sell a product or service. 3. Spam.

AFFIRMATIVE CONSENT -- a practice whereby an Email Marketing Company requires its customers to gain permission to engage in Speech. Consent as a condition of Free Speech may be a violation of Constitutional law.

AMENDMENT IA -- Speech in the form of wonder, awe and reverence. Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof.

AMENDMENT IB -- Speech in the form of ideas, concepts and words. Congress shall make no law respecting an establishment of speech or abridging the freedom of speech,

or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

AMENDMENT IX -- The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

ANTI-SEMITISM -- Hostility, prejudice or discrimination against Jews for no other reason than the fact that they happen to be Jewish.

ANTI-SEMITIC SWORD -- The false accusation of anti-Semitism in order to censor any legitimate criticism of anything.

ANTI-SPAM AUTHORITIES -- Once speech is arbitrarily labeled "spam," Spamaphobics place its governance under fake authorities called Anti-Spam Authorities. Control Group entities that institutionalize Censorship.

CANCEL CULTURE -- an Orwellian Society where a person delivering politically incorrect speech is ostracised, abridged, suppressed and/or censored in accordance with the Control Group's interests, values, cultural perspectives and prejudices. Perhaps the two most high-profile cancellations were Bill Maher's cancellation from ABC in 2001 and President Donald Trump from Twitter in 2021.

CENSOR -- 1. To suppress or delete speech. 2. To remove objectionable material from speech.

CENSOR NAZI -- A broad term characterizing any person or entity that administers or facilitates the Censorship or suppression of Speech in a manner that even Adolf Eichmann would find excessive.

CENSORSHIP -- Overtly or covertly suppressing, banning, deleting, banning, terminating, blocking, minimizing, abridging Speech by a government, public corporation, private corporation individual or any other controlling entity.

CHILLING EFFECT -- Anything that causes one to self-censor, speak less or be silenced. False Accusations of Abuse, Anti-Semitism, Racism, Bigotry, Misogyny, etc can have a Chilling Effect on Speech because undiscerning individuals will tend to believe the accusation, even if it is false.

Under the U.S. Constitution there are no designated "communities" that set "standards" about Speech. The First Amendment is the "standard" and this is why the CAN-SPAM Act does not even mention the word "spam" in the actual text of the law.

CONGLOMERATE -- One of the 6 mass media entities that owns a Movie Studio and a TV Network. Media Conglomerates dominate 90% of the mass communication channels in the US.

CONSENT -- 1. The bogus and ridiculous requirement that Speech may not proceed without permission from the recipient. The demand of "consent," expressed or implied, oral or written, is one of the many ways infringement or full censorship of Speech is effectuated. 2. Consent amounts to censorship when it's demanded in the limit. 3. Permission granted by some individual, government or group. 4. By commingling the act of "consent" with the act of "rape," the professional censor has built a concept that can be applied to unwanted Speech in the same manner as unwanted rape. Thus, "unconsensual speech" becomes a metaphor for "unconsensual sex," such known as rape.

CONSENT FALLACY -- The idea or requirement that one human being must get "consent" or "affirmative consent" from another human being before communication is "authorized" or may occur takes the practice of control, domination and censorship to new depths of depravity.

CONSEQUENCE CULTURE -- A Cancel Culture whereby Free Speech is abridged with punishment in the form of "consequences."

It's a contract of adhesion because customers have to "take it" or not get the service. It's a conspiracy because most people are not able to read and understand voluminous agreements filled with legalese.
